

AMENDMENT TO THE SPECIFICATION

Please replace paragraphs 0002 and 0011 with the following:

[0002] The present invention relates to a removable inner sole, ~~called~~ or insole, having an anti-slip means preventing the latter from sliding inside the boot.

[0011] After the upper has been fixed by sewing to the Strobel sole 4, an outer sole 5 of the liner 3 is glued beneath the Strobel sole 4. This outer sole protects the seams and ~~render~~ renders them impervious or waterproof.
